

Term Sheet

Palos-Mitchell Alpha Fund

PALOS

This Term Sheet provides a summary of the key terms and conditions of the Palos-Mitchell Alpha Fund as of June 30th, 2025. The trust agreement and other important information are available upon request.

Organization Overview

The Palos-Mitchell Alpha Fund (the “Fund”) is an open-ended trust established on January 29, 2019. Palos Wealth Management Inc. (“Palos”, the “Firm” or the “Manager”), a Canadian wealth and investment management company, acts as the investment fund manager and portfolio manager of the Fund.

Investment Objectives

The Fund's primary objectives are to 1) protect capital and 2) deliver superior long-term returns by investing in a core portfolio of primarily large and mid-capitalization global equities. The Fund is actively managed and uses a thematic, fundamental, and probabilistic approach for security selection. To achieve its objectives, the Manager will seek to enhance returns through opportunistic or event-driven trading, risk mitigation strategies, and tail risk hedging.

Investment Strategy

The Fund invests in developed global markets as defined by the MSCI World Index. The Manager favors North American-listed securities to benefit from greater liquidity, time-zone alignment, and a strong regulatory framework. The Fund’s core investments include listed equities, listed derivatives (options), and depository receipts. The Fund may hold short positions at the discretion of the Manager. Furthermore, the Manager employs derivatives strategies to mitigate risk, increase convexity, or monetize volatility. Tail-risk mitigation strategies leverage expertise in derivatives and risk management to help protect the portfolio against adverse market conditions.
